

Mechanic's hammers

Head in forged special steel, tempered and hardened
Type with entirely polished head - DIN 1041

Accident prevention safety type

PICARD

C 3429/0 - Ergonomic handle in painted hickory wood, with safety collar and screws

The safety screw prevents the head from detaching and ensures a secure and long-lasting joint between the handle and the head, without protruding parts

C 3430/1 - Fiberglass ergonomic handle coated in rubber with collar - High safety level

C 3430/2	Each €							

ABC tools by MAXXCraft - Made in Germany

NON-REBOUND version, with new joint system between the head and the handle (fitted with protective collar with rubber coating), which reduces vibrations considerably and prevents the two parts from coming apart

Ideal for applying a greater impact force and intense work with less fatigue

With hickory wood handle, collar coated with rubber and safety pin
