

FLEX «Vario-Giraffe®» - Wall and ceiling sander

Long-necked sander with variable length and designed for two types of head: round head Ø 225 mm, for fast works on large surfaces, and a triangular head to easily reach corners and far-away edges, allowing for immediate finishing without using ladders or scaffoldings

Suitable for polishing plaster walls, insulating polystyrene panels, works for painting and polishing preparation

Electronics with progressive start-up, rpm stabilization, rpm pre-selection through wheel and overload protection

Ergonomic and balanced, it always ensures a perfect grip to work with reduced effort

Heads with perimeter brush and universal joint to adapt to every corner and inclination and not to damage surfaces

With direct dust suction, that can be directed to a vacuum cleaner connected through an attachment placed at the end of the tube

Adjustable length from 1330 to 1730 mm through back telescopic handle

Carbon brushes with automatic stop before complete wear

Supplied with one head complete with 1 triangular polishing head, 1 round polishing head, 1 dust suction tube, 4 m long Ø 32 mm and abrasive paper

Absorbed power	W	710
Idle speed	rpm	1000 ÷ 1500
Idle stroke triangular head		3000 ÷ 4500/min
Weight	kg	4,8
Code E 1113 8320	E 1113/832	Each €  1

Abrasive paper for «Vario-Giraffe®» sander E 1113/832

For polishing, smoothing and finishing grooves on plaster and masonry

In 25 pcs. packs (10 pcs. for grain 16)
