

Gauge block sets

In ceramics, high resistance to wear - Accuracy DIN EN ISO 3650

Super-finished surfaces with symmetrical lapping

For metrology rooms - Approx. hardness 1350 HV

Resistant to wear, shocks, scratches and corrosion due to acid and alkaline substances

High stability to thermal expansion - High adhesion power

With individual identification number and testing certificate

Upon request, Accredia or DKD certificate can be supplied

JUWEL PLUS - Accuracy level 0

For checking gauge blocks for work and for calibrating tools and high precision measuring machines - In wooden box, dimensions LxDxh 295x170x60 mm

Pieces	n°	47		
Code		H 4532 0047		
H 4532/0	Each €			
Consisting of	Pcs	dim. mm	progr.	
	1	1,005	-	
	21	1,00÷1,20	0,01	
	8	1,30÷2,00	0,10	
	8	3,00÷10,00	1,00	
	9	20÷100	10,00	

Mitutoyo - Accuracy level I

For checking calipers and for calibrating tools for measuring lengths and for precision measurement operations in control rooms - In wooden box, dimensions LxDxh 320x165x70 mm

With pieces	n°	47		
Code		H 4532 1047		
H 4532/1	Each €			
Consisting of	Pcs	dim. mm	progr.	
	1	1,005	-	
	19	1,00÷1,19	0,01	
	8	1,20÷1,90	0,10	
	9	1,00÷9,00	1,00	
	10	10÷100	10,00	

JUWEL PLUS Individual gauge blocks

In special, stabilized steel, high resistance to wear

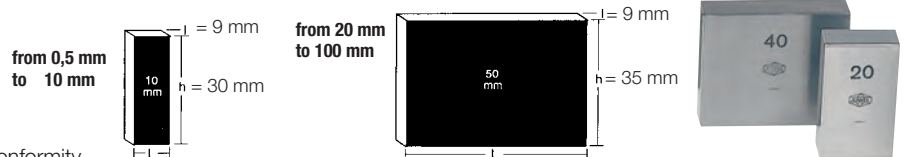

Accuracy DIN EN ISO 3650

Super-finished surfaces with symmetrical lapping

Accuracy I

Blocks dimension as shown in the drawing

With individual identification number and certificate of conformity

Gauge blocks with different measures from those in the table and/or precision level 0 and II are available upon request

Cleaning cloths

For cleaning, care and maintenance of metals and metal surfaces, such as calipers, gauge blocks, pliers, etc.

It doesn't leave odors or traces on treated parts and it doesn't contain acids and resins

It removes signs, water spots, dust, dirt and it leaves a thin film to protect from dirt

In distributing container **with 80 cloths dimension 130x200 mm**

Environmental friendly

Code H 4533 9000	H 4533/9	Each €	 1
