

## Measuring tapes

Manufactured according to 2014/32/EV European standards

### ABC TOOLS

**Enamelled steel tape** - Class II - Automatic return

Synthetic resin case **coated with non-slip rubber**, with the measure of the support base impressed on the box

**With locking button** to pull out, block and release the tape and metal clip

Tape length	m	2	3	5	8	8	10
Code	H 5070 ...	0002	0003	0005	0825	0008	0010
<b>H 5070</b>	Each €						
Band width	mm	16	16	25	25	32	32

## BMI

**BMI meter model**

**Convex stainless steel tape**, width 16 mm - Class II

**Locking button** to pull out automatically the tape and to block it and and stop

To rewind the tape, press the button and push the tape

The specific shape of the convex belt is designed to facilitate reading avoiding measuring errors and it provides a straight edge for tracing lines

Tape length	m	2	3
Code		H 5075 0002	H 5075 0003
<b>H 5075</b>	Each €		

**PICO model** - Measuring tape, ruler and level in one single tool

**Convex stainless steel tape**, painted - Class II

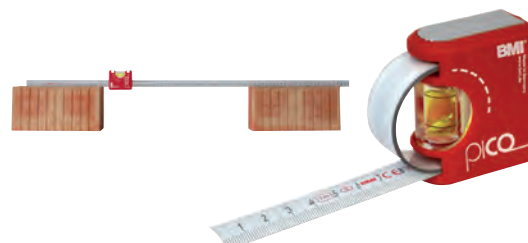

The specific shape of the convex tape is designed to facilitate reading avoiding measuring errors and it provides a straight edge for tracing lines

The tape can be completely unwound and inserted in the slot behind the case: it turns into a level with the possibility to easily and precisely measure the points

Without case it can be used as ruler - For rewinding just insert the tape

**Tape length 1 m** - Width 19 mm - Level precision 1 mm/m

Code H 5075 3001	<b>H 5075/3</b>	Each €	1
------------------	-----------------	--------	---

**Painted steel ribbon with standard width** - Class II - Automatic return

Shockproof, ABS case, The measure of the support base is impressed on the case

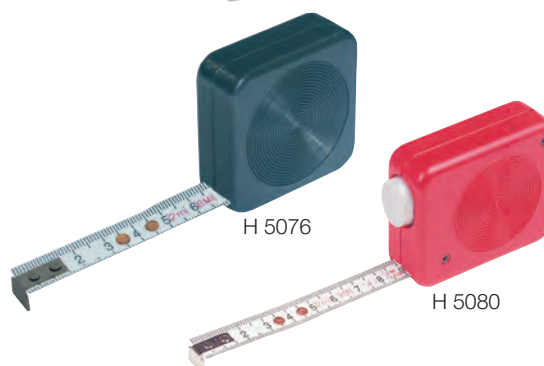

In blister pack - The **price includes control procedures and punching**

**H 5076 - RECORD model** - Without locking button

**H 5080 - 1500 model** - With locking button to pull out, block and release the tape

Tape length	m	2	3	5*
Code		H 5076 0002	H 5076 0003	—
<b>H 5076</b>	Each €			
Code		H 5080 0002	H 5080 0003	H 5080 0005
<b>H 5080</b>	Each €			
Tape width	mm	13	13	16

\* With belt

### ABC TOOLS

**Enamelled steel tape**, standard width - Class II - Automatic return

Shatterproof, ABS case **with locking button** to pull out, block and release the tape

Tape length	m	2	3	5	8
Code		H 5080 8002	H 5080 8003	H 5080 8005	H 5080 8008
<b>H 5080/8</b>	Each €				
Tape width	mm	16	16	19	25

## BMI

**Enamelled steel tape**, standard width - Class II - Automatic return

**With locking button** to pull out, block and release the tape

In blister pack - The **price includes control procedures and punching**

**MAX model**

Shatterproof, synthetic resin ABS case with indication of the support base dimension

Hook of the tape increased and reinforced, with protection damper

With **concealed clip**, shatterproof, for attaching to the belt

**Tape length 8 m** - Width 25 mm

Code H 5079 0008	<b>H 5079</b>	Each €	1
------------------	---------------	--------	---

**twoCOMP model**

Shockproof, ABS case **coated with non-slip rubber**, with indication of the support base dimension and clip for attaching to the belt

Tape length	m	2	3	5	8	10
Code		H 5081 0002	H 5081 0003	H 5081 0005	H 5081 0008	H 5081 0010
<b>H 5081</b>	Each €					
Tape width	mm	16	16	19	25	25
