

## Soldering iron for tin welding

For 230V voltage - Conforming to accident-prevention standards EN 60335-1

### Industrial type

#### STANNOL® - With round bent copper

Long-lasting resistor and excellent insulation

Supplied with bronze treated copper tip, against oxidation and corrosion and metal support pedestal

Consumption	W	60	80	100
Code		K 3785 4060	K 3785 4080	K 3785 4100
<b>K 3785/4</b>	Each €			
Max temperature	°C	460	480	500

#### Spare tips for solderers K 3785/4

Code K 3785 6000	<b>K 3785/6</b>	Each €	1
------------------	-----------------	--------	---

## Soldering stations

For 220÷230V voltage - 50 Hz

#### STANNOL®

Body in coated aluminium

With **ESD SAFE** socket for connecting bands and ESD mats for protection against electrical discharge

Protection level I - ON/OFF switch

Supplied with 2 tips, soldering iron support and sponge for tip cleaning

#### Version with potentiometer for continuous temperature regulation

The solderer with integrated temperature sensor and the ceramics heating element ensure a stable and precise temperature without overheating

Temperature reading on LCD display

Suitable for soldering without lead and for soldering delicate electronic components

Power	W	55
Temperature	°C	200÷480
Heating	sec	50
Dimensions LxDxh	mm	115x114x160
Weight	kg	2
Code K 3787 1000	<b>K 3787/1</b>	Each €  1

#### Version for professional use with temperature regulation through microprocessor

Fast heating, high-frequency induction

With stand-by function, automatic switch-off, password protection to change settings and tools calibration option

Suitable for soldering without lead

Power	W	100	150
Code		K 3787 3100	K 3787 3150
<b>K 3787/3</b>	Each €		
Temperature	°C	50÷480	50÷480
Heating	sec	18	12
Dimensions LxDxh	mm	110x110x165	110x110x175
Weight	kg	2,5	2,6

K 4

#### ABC

#### With electronic control and continuous temperature regulation

Temperature reading on LCD display

With ON-OFF switch and control light

Complete with fine tip solderer, soldering iron support and sponge for tip cleaning

Power	W	50
Temperature	°C	160÷480
Dimensions LxDxh	mm	125x170x95
Weight	kg	1,7
Code K 3788 5000	<b>K 3788/5</b>	Each €  1

#### Spare soldering iron 50 W - 24 V with fine tip

Code K 3788 5500	<b>K 3788/55</b>	Each €  1
------------------	------------------	-----------

#### Spare tips - pcs. 10

Shape	Very fine	Fine	Medium	Knife
Code	K 3788 6001	K 3788 6002	K 3788 6003	K 3788 6004
<b>K 3788/6</b>	Each €
