

Safety shoes - EN 20345 - Cat. S1-P

Shoes with the following minimum requirements:

- **Safety toe cap, able to withstand up to 200J, suede or imitation leather upper and minimum upper height, non-skid, and hydrocarbon resistant sole (FO)**

as well as:

- **anti-static (A), energy-absorbing heel (E), footwear closed at the back, anti-perforation midsole (P),**

The letters between brackets are the identity code shown on the shoe

anti-perforation midsole (P)

Safety toe cap up to 200J

non-skid

anti-static (A)

energy-absorbing heel (E)

hydrocarbon resistant (FO) sole

Made entirely of suede leather with highly breathable "Air Net"™ inserts and lining, with stain proof treatment

Light-weight model particularly flexible for full-time use with high degree of comfort

Extra large steel safety toe cap

L-Protection® fibre anti-perforation midsole

Removable anatomical polyurethane inner sole, covered in anti-bacteria and anti-fungal fabric

Sole in nitril rubber oil resistant, anti-static and heat resistant, with non-skid ridges

Size		40	41	42	43	44	45	46
Code	M 1985 ...	1040	1041	1042	1043	1044	1045	1046
M 1985/1	Per pair €							

Made entirely of perforated suede leather with highly breathable "Air Net"™ lining

Extra large steel toe cap

Stainless steel anti-perforation midsole

Removable anatomical anti-static, anti-bacteria, and anti-fungal felt inner sole

Sole in dual density polyurethane, oil resistant and anti-static with non-skid ridges

Abrasion proof toe cap covering

Size		40	41	42	43	44	45	46
Code	M 1985 ...	4040	4041	4042	4043	4044	4045	4046
M 1985/4	Per pair €							

In suede leather with highly breathable "Air Net"™ inserts and lining, with stain proof treatment

Extra large toe cap made of composite material that makes the shoe lighter and non detectable by metal detectors, while maintaining the same degree of protection as steel toe caps

L-Protection® anti-perforation midsole

Removable anatomical polyurethane and cotton inner sole that is anti-static, anti-bacteria, and anti-fungal

Sole in dual density polyurethane that is oil resistant and anti-static, with non-skid ridges

Abrasion proof toe cap

Size		40	41	42	43	44	45	46
Code	M 1986 ...	4040	4041	4042	4043	4044	4045	4046
M 1986/4	Per pair €							

Type with textile upper

Light, flexible and comfortable model, suitable for full-time use

Breathable and absorbent mesh fabric lining

Toe cap in composite material makes the shoe lighter and not detectable by metal detector

Anti-perforation lamination midsole in L-Protection® fibre

Polyurethane sole, with nitrile rubber tread, anti-static and with non-skid ridges

M 1986/6 - Black

M 1986/7 - Blue

Size		40	41	42	43	44	45	46
